*Creating Happy Moments
Since 1978*

CREATING HAPPY MOMENTS

IAAPA OUTSTANDING SERVICE AWARD 2021

Arihant began its journey 40 years ago when the global waterpark industry was in its early years and India was still unacquainted with the waterpark industry. We take immense pride in being the founders of the attractions industry in the country and since then have been engineering innovative rides across the globe.

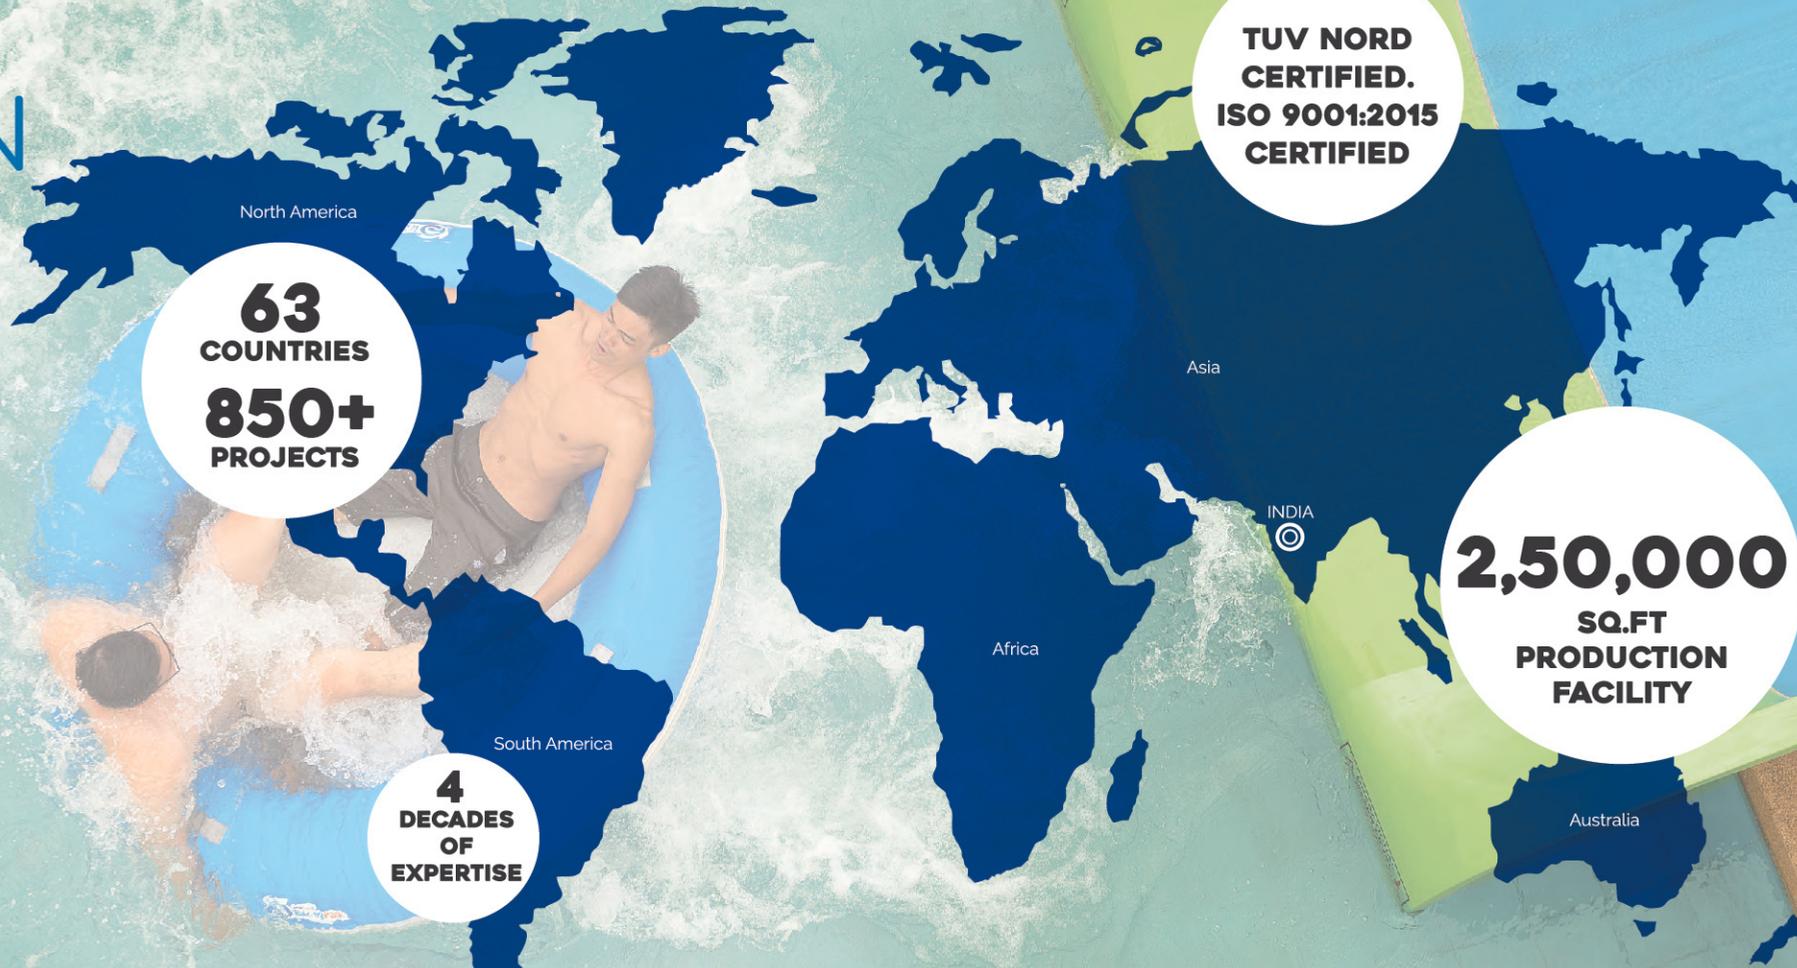

With humble beginnings as a water park equipments manufacturer to today being a complete solution provider with multiple cross industry associations, we always work towards assisting our patrons make most from their investments and create happy moments for all!

Rajen Shah
Managing Director

AROUND THE WORLD IN 4 DECADES

Engaged in manufacturing and supply of water park equipment, Arihant has evolved into a one stop solution for providing comprehensive quality services. Having a vast experience of 4 decades, we have transformed ourselves into a market leader and hold a prime position in the industry. Owing to our innovative products, meticulous planning, and designing as per international standards with commitment to quality, safety and attention to detail.

A WALK TO REMEMBER

CONCEPT TO COMPLETION

Feasibility Study

Owing to this ability of chalking a profitable business for our clients, we first outline the vital aspects of the project that deal with market potential, visitor traffic estimates, operating cost estimates and overall project profitability

Master Planning and Design

All projects at Arihant are planned keeping in mind the minutest details and requirements of the clients. At this stage, we ensure that we customize all parks as per the client's requirements, preferences and constraints

Theming and Concept Development

Theming gives a story to a slide that visitors can connect to! We offer custom themes that give an edge to slides and help them to stand out from competition

Manufacturing

We are ISO 9001:2015 certified. All our products conform to international standards (EN 1069 & ASTM) in terms of design, performance and safety manufactured with stringent quality control measures

Installation and Trials

We not only install our products on the specified location but also execute trials to ensure operation safety before the rides open for visitors

After Sale Service

We have always believed in nurturing and maintaining relationships with our clients post project completions. Our customer service team helps us achieve this by efficiently assisting the clients in their post installation queries

Training Academy

Our services are not limited to just installing the slides but we also train you for the future. With our experience of managing a waterpark, we can devise a training program for our selective clients to prepare you for the nitty-gritties of running a park successfully!

INFRASTRUCTURE & TECHNOLOGY

At Arihant, our expansive manufacturing facility and substantial annual FRP capacity enables us to deliver the highest quality in terms of products and services. We invest in equipment, machinery, designs and strategies that let us craft future-ready parks.

Having successfully completed over 850 projects across 63 countries over the last 4 decades, our dedicated team of employees across India takes immense pride in contributing to an organization that is devoted to creating happy moments.

SAFETY

We are ISO 9001:2015 certified and all our process are marked for safety of the final output. We follow design simulation to give you safer slides than compared to competition.

DURABILITY

Our raw materials are sourced from globally established and well-known brands. We follow complex and durable procedures which increase the life of the slides. For instance, we follow dip paint system whereas many companies still follow hand paint method.

VALUE

Our slides perform efficiently for longer period and require very less maintenance.

Hence when you compare costs, you will get a better ROI over the years with our slides

QUALITY

Our processes follow blind manufacturing i.e. every order is processed on a unique numbering system which enables us to deliver standard quality across all orders & customers and maintain consistency in quality. Post production all our products go through 3 stringent (2 internal & 1 external) quality checks.

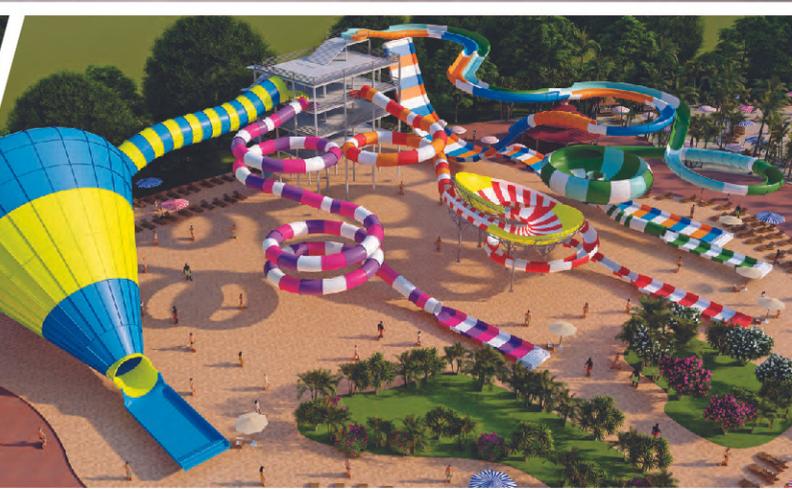

*APS: Arihant Production System is a specially developed process for all Arihant products

RTM

Arihant also takes pride in being one of the few global suppliers in the world to provide RTM technology for water slides. The advantages of this technology can be seen as below:

- Accurate Finish And Superior Product Quality
- Perfect Tightness And Durability Of The Elements.
- Longer Life Of The Slide
- Efficient Structure Of The Slide
- Environment Friendly Technology
- Stronger And Lighter Waterslides
- Easy Maintenance

3D RENDERS

PARK STORIES

Behind every park there is an untold story!

Dreamer Water Park, Thailand

Vision: To create a visually impactful, operationally practical & spatially compact water park for catering to the young adults and families of the region; while sticking to an aggressive timeline

Solution: The compact park design incorporated natural themes integrated with 17 thrilling rides and a themed water play structure, to keep visitors entertained. All the attractions were commissioned in a record time of 4 months!

Products Installed

High Thrill Slides

Spider Slide

Crusader

Body Bowl

Crazy Cruise

Family Float Slides

Water Play Structures

Lazy River

Typhoon Waterpark, Vietnam

Vision: With the vision to create one of the most modern water park in South East Asia, Sun Group was looking for unique attractions with high guest handling & engagement capacity.

Solution: The carefully curated ride mix consisted of two of Vietnam's Firsts – A Bowl-in-Bowl & the Spider Racer Slides. These signature rides backed with multiple Arihant attractions ensured the park keeps its thousands of visitors entertained.

Products Installed

Spider Slide

River Slide

Bowl N Bowl

Open and Closed Body Slides

Float Slides

Water Movers

Hotel Aquapark Zatoka, Ukraine

Vision: The park promoters wanted to open a new park with a vision to make it as one of the largest waterparks in Ukraine with never seen before attractions.

Solution: The park that opened in 2017 is one of the Arihant exclusive parks in Eastern Europe. The park has 17 thrilling rides and 1 water play structure with an animal theme. It is one of the very few parks across Europe to have 2 Cobra Crusader slides.

Guest Speaks

It was difficult to get my kids away from them. Park layout is well thought out for families with small children. The huge amount thrill slides are the best!

North Jellystone, USA

Vision: The camping ground giant, with over 85 parks in the USA, wanted a highly immersive, highly engaging family attraction that would not only enhance guest experience but would leave families and kids coming back for more.

Solution: With the launch of highly anticipated custom water play structure, the camping site has witnessed both – a spurt in business and a ever high guest experience in the park. The themed structure includes multiple flumes, a giant tipping bucket, themed photo points, and numerous interactive water features.

I can tell you that is was the very best decision we ever made. Our cabins were occupied much more than before. I highly recommend you to work with Arihant and their professionals to see how they can help you.

Mr. Ron Bowyer
Park Owner

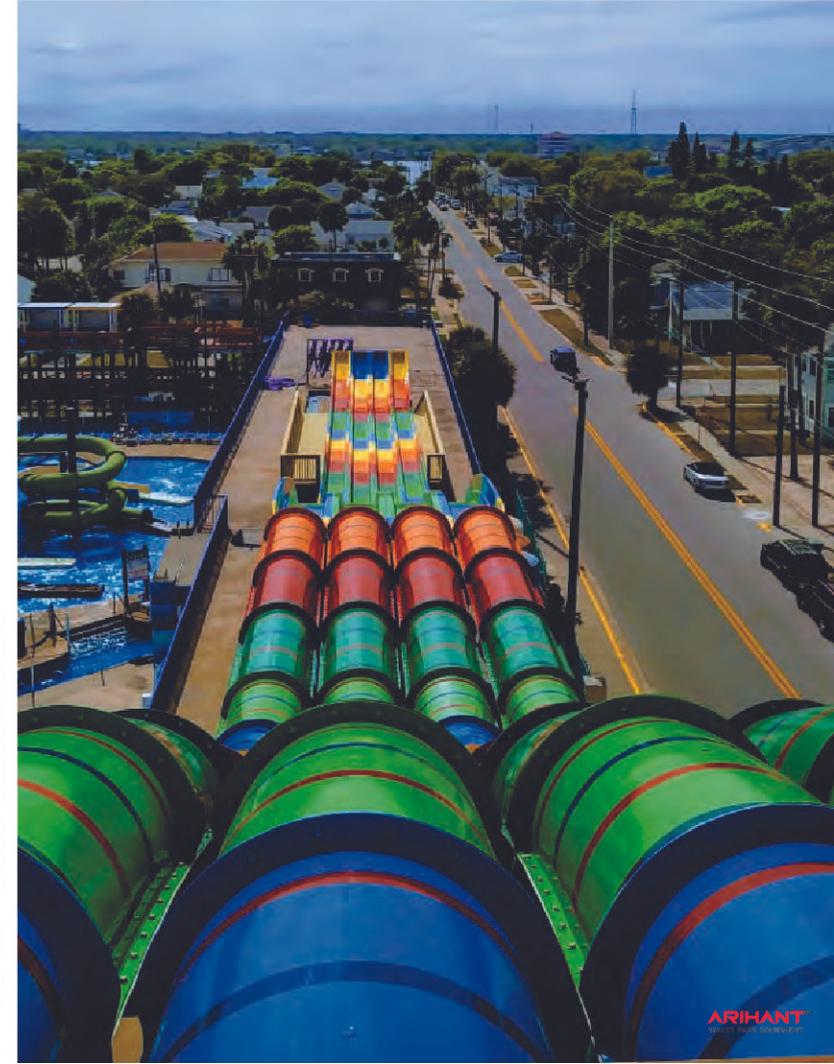

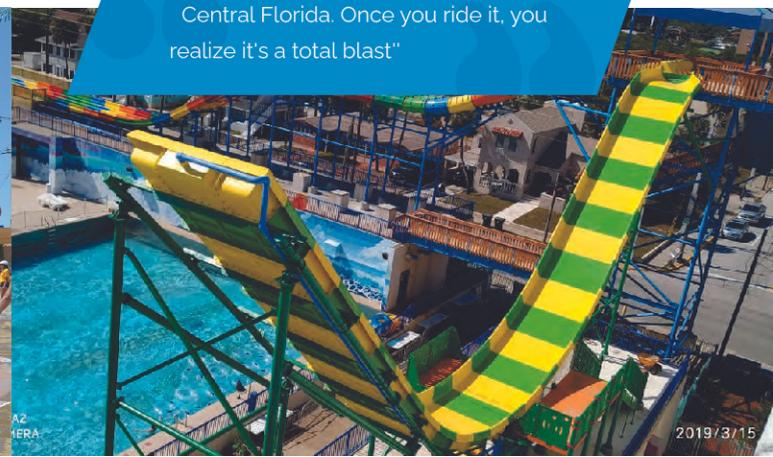

Daytona Lagoon, USA

Vision: This iconic 20 year old park wanted to re-vitalize its guest experience and introduce one-of-a-kind attractions to enhance its competitiveness in the region.

Solution: With limitations on the available footprint and elevations, Arihant crafted 2 new attractions for the park. The first – Kraken's revenge - is a four-lane racing slide that rises over 40 feet and includes a high-speed "time warp" tunnel. The other - The Shaka Half pipe- is a pendulum ride which sends the riders down a 40 feet drop to give an experience of weightlessness.

"They are one of a kind ride here in Central Florida. Once you ride it, you realize it's a total blast"

Aquapark Neptuna, Bulgaria

Vision: Situated next to one of the biggest tourist attractions - the castle "In love with the Wind" in Ravadinovo village, the vision was to develop a park that would draw from its historic significance to add a unique flavor to the water park.

Solution: Arihant designed two slide complexes with unique experiences and varying levels of thrill. These attractions along with its highly-impactful & highly-interactive 'knight themed' water play structure keep the guests entertained all day long.

Aquamagica, India

Vision: With the dream to create India's largest theme Park destination, Imagica a world Entertainment Ltd. wanted to create a water park like no other. The challenge was to design attractions to WOW- its guests while using its challenging topology.

Solution: The park's most celebrated attraction - the Swirl Whirl Funnel & the family favorite - the Pirate Cove were exclusively designed by Arihant. These attractions backed with xx other Arihant slides add dynamism and energy to the park; All this while utilizing the natural topography to the fullest.

Guest Speaks

Wonderful Waterpark. Offers many attractions that are for adults as well as kids. Will return again to the park.

-Yoana Marinova

Guest Speaks

Beautiful water park. Amazing rides some are scary some are funny. Rides for everyone like children & adults.

Landmark Hotels, USA

Vision: One of the most popular hotels wanted to create complete new thrilling experience for their guests by adding new water slides and splash pad.

Solution: Within existing space, Arihant had to design 3-4 water slides from a height of 40 Ft, providing thrill and excitement to the end customer. All these slides were to start from a new age steel tower designed and supplied by Arihant. The most critical aspect in the project was to design the products to withstand high wind speeds and the corrosive environment near the sea-shore. This project, executed in 2023, showcased Arihant's ability to overcome these challenges. Additionally, Arihant developed an innovative splash pad for kids with a Lion themed water slide, making it a complete entertainment package for the family.

Holiday Camping, France

Vision: The Five Star Campground wanted to add an attraction which not only entertained the families, but also WOW 'ed them. The vision was to create a holistic play environment for the young and the old.

Solution: Arihant crafted a bespoke water play house complemented by an interactive splashpad, providing entertainment for the whole family. Additionally, We incorporated custom theming to harmonize with the campground and its surroundings. This project was successfully completed in 2022.

Sunset Aqua Park

Vision: Sunset Aquapark in Bulgaria aimed to become the premier waterpark in the region, boasting the maximum number of slides and unparalleled experiences.

Solution: Arihant's ingenious design packed 20 slides into a single tower across 5 levels, addressing space constraints. This setup allowed for efficient operations, complemented by two water play structures and making it Pomorie's largest waterpark.

Foldvik Familiepark

Vision: In this project, the goal was to craft a distinctive attraction that resonated with families and kids, integrating seamlessly with their existing Pet Farm while providing a unique and engaging experience.

Solution: Arihant delivered a creative solution in the form of a Pet-farm themed family destination and slides, perfectly complementing the existing farm. This innovative addition catered to the desires of families and children, ensuring an unforgettable visit for all. We completed this project in 2023 and it reflects our commitment to quality entertainment.

Theming

Theming gives a story to a slide that visitors can connect to! We offer custom themes that give an edge to slides and help them to stand out from competition.

The process involves

- Storyboarding
- Visualization & Reference
- Sketching
- Basic Theming
- Advanced Theming

LAUNCHERS

Launchers are automated start systems for slides. For any specific slide, the launcher is raised to an angle from where the ride elevation and slide trajectory are in line

Pros of having a launcher are:

1. Elevated ride experience
2. Reduced manpower costs
3. Error free ride experience
4. Rally Launcher – Pneumatic

Arihant Offers 4 types of Launchers for varied ride structures:

1. X-Scream Capsule Launcher
2. Duo Raft Launcher – Conveyor & Pneumatic
3. Family Raft Launcher – Conveyor & Pneumatic
4. Rally Launcher – Pneumatic

FLOAT SLIDES
